Keshav Maheshwari

Jaipur, Rajasthan
+91 7877227621 — keshavmaheshwari4438@gmail.com — GitHub — LinkedIn

Professional Summary

Motivated Computer Science undergraduate with a strong foundation in Data Structures & Algorithms and Web Development. Actively involved in academic and practical projects with a strong interest in applying technology to real-world problems. Adaptable team player with a continuous drive to improve technical and problem-solving skills, aspiring to grow as a Software Engineer through hands-on industry experience.

Education

JK Lakshmipat University (NAAC A)
Jaipur, Rajasthan
B.Tech in Computer Science Engineering
Aug 2024 – Dec 2025

- CGPA: **9.459 / 10** (Till 4th Semester)
- Awarded **JKLU Honours List (2024–25)**
- Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, OS, Web Development

Maheshwari Public School
Jaipur, Rajasthan
Senior Secondary (Science with Mathematics)
2022 – 2024

- Class XII: **81%**
- Class X: **93.2%**

Technical Skills

Languages: C, C++, Python
DSA: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Recursion, Searching & Sorting
Web: HTML, CSS, JavaScript, React.js, Node.js
Databases: MySQL, SQL Queries
Core CS: OOP, OS , DBMS
Tools: Git, GitHub, VS Code, Linux, Databricks

Experience

Anytime Invest
Jaipur, Rajasthan
IT / AI Intern
May 2026 – July 2026

- Worked on AI-driven data analysis workflows using APIs to extract, process, and interpret business data.
- Worked with **Databricks Platform and Apache Spark** for large-scale data processing and transformation, supporting efficient handling of structured datasets.
- Contributed to the design and organization of data using **Data Warehouses and Data Marts** for analytical and reporting requirements.
- Developed **AI-based data analysis reports** using **Prompt Engineering and API integration** to generate structured and actionable insights from business data.

Projects

SkillProof AI *React — JS — ML — API*
GitHub Repository

- Blockchain-based AI-verified resume builder designed to enhance trust and authenticity in hiring.
- The system takes structured inputs from users regarding their skills, projects, and experiences.
- Assesses the skills using AI-based evaluation and generates a professionally formatted resume template.
- Applied ML fundamentals, Web3, and problem-solving techniques for scalability.

QuickFix+ *HTML — CSS — JavaScript — SQL*
GitHub Repository

- Built a service-based web application for quick and reliable technical and maintenance solutions.
- Implemented user-friendly UI and basic backend logic for managing service requests.
- Strengthened full-stack fundamentals and real-world application design.

AI-Based Crop Price Forecasting & Market Advisory System *Python — Machine Learning*

- Built a machine learning solution to forecast crop prices using real-world mandi data, addressing price uncertainty for farmers.
- Applied multiple regression models (Linear Regression, SVR, Random Forest, XGBoost) to deliver accurate and reliable predictions.
- Achieved 0.92 R^2 score with stable performance, ensuring practical usability in real-world scenarios.

- Designed a simple decision-support system providing *Sell / Hold / Wait* recommendations to improve market timing.

NayiShuruat *AI Concept — Research-Based — Web development*
Project Link

- Conceptualized an AI-assisted legal awareness platform on divorce law and domestic violence in India.
- Created user personas and empathy maps to understand legal and emotional challenges.
- Emphasized confidential guidance and informed decision-making through technology.

Achievements & Certifications

- **LeetCode – 50+ Problems Solved** Profile Link
  - Consistently solved **50+ Data Structures and Algorithms problems** on LeetCode, strengthening problem-solving and algorithmic thinking.
- **Infosys Springboard – DBMS Certification (Nov 2025)** Verification
  - Completed structured training in relational database concepts, normalization, and SQL queries.
  - Gained hands-on understanding of query optimization and database management fundamentals.
- **LNMIIT Hacks 8.0 – Hackathon Participant** certification
  - Collaborated in a team to design and present a solution under strict time constraints.
  - Contributed to ideation, feature planning, and technical structuring of the project.
  - Enhanced rapid prototyping, teamwork, and problem-solving abilities in a competitive environment.
- **CodeChef Rating: 1427** Profile link
  - Regularly practice Data Structures and Algorithms problems to strengthen algorithmic thinking.
